It is not YOUR intel, it's US intel on your latest disgusting attempt to drag us all into WW3.

That being said, there is no functional difference, as they, and Australia, and basically the whole global west, are captured by genocidal Zionist freaks.

I take some comfort in the fact Israel has become such a global pariah, and your evil has been so thoroughly exposed, that even CIA operatives are now risking decades in prison to try and stop you from carrying out this wickedness.

Get fucked, now and forever, and die screaming. The world hates you, and I highly doubt Israel will still exist in 2070.

P.S: Iran has clearly demonstrated they can strike you at will with hundreds of ballistic missiles, so if you go through with this insanity, I hope they take you out first.

>>498877074

Jesus Christ, I know Americans are dumb, but are you actually illiterate? It is clearly dated 25 Feb and relates to an attack planned 'as early as the first week of March'. Learn to read, mutt, or get off the internet.

The delicious thing about this leak is there is no greater indicator of its legitimacy than how much it has triggered you evil Israeli terrorists. The kvetching going on in Unit 8200 will be off the fucking charts right now. The goyim know!

For the tens of thousands of children you have slaughtered in Gaza in the most cowardly ways and from great distances, and for the despicable technological horrors you have unleashed on the world, may hellfire rain on your stolen country, and erase you from the history books. Inshallah.

HAHAHahahaha cope harder. Iran has the heads up now. You're so doomed.

One of your last actions for Israel will be lying on the internet. Fitting.

Imagine trying to convince anyone this isn't real. Only an Israeli would have the fucking temerity. This is the culture that develops when the spoiled child (Israel) is never told no by its parent (America).

I for one welcome our new BRICS overlords. They can't be any worse than you creeps.

If they're doing it now, it's to provoke Iran into an overreaction. Iran is trying to sit back and lick their wounds and regroup. Their proxies have been decimated pretty hard (other than Houthis), their embassy got hit, they've had assassinations in the heart of Tehran, civil unrest, and got hit hard by the Israeli missile strikes without much of a reaction. They're clearly on the backfoot at the moment, and if Israel goes ahead with this it's to box Iran into a corner where they have to do something reckless like build an actual nuke.

No doubt, the thing about it is though Hezbollah are pretty quick on their feet. They were getting hammered and still managing to stay on their feet and fire rockets into Israel while under invasion. Yeah, rumor is the sabotage attacks mainly effected their non-military ops.

>Now that there's no pressure I can only imagine how much regrouping they're getting done.

Well, the problem for Iran-Hezbollah coordination now is that it's a lot harder for Iran to send them supplies. Not that they can't do it, just requires much more work without a friendly government in Syria.

Judaism is a primitive superstition based on merging a midianite volcano god (yahweh) and the remote high god of the canaanite pantheon (el). It then plagiarised various forms of proto-monotheism from both the Persian zoroastrians and the Greek platonists but not before mangling the ideas with the customary malignant jewish narcissism. Judaism is essentially one big cope for being surrounded by more advanced people continually curbstomping jews. It is a power/revenge fantasy.

cant do it now. no surprise.. I wouldn't. they would switch all their shit on or off. swing their radar into finding stealth by leveraging high and low frequencies like they did with that f 117 ..move shit around, and have spotters waiting. they also have thousands of sleepers in usa and Israel waiting for the attack. the sleepers in usa know one thing, they will go after the grid. power will go down for at least a week. that enough time, as all groups are at each others throats. usa will take a long time to come out of this, with mass deaths all over the place. ive read and read so so much my head hurts on the subject. if I were usa, I would guard all infrastructure at this time. but..they wont. they wont it to happen and trump, trump. all gay as. this attack sparks a lot, as usa hands are tied actors do what actors do.
